

## Curriculum Vitae

### Academic education

Since 1.1.2008	Ass. Prof. University Aalborg, Dept. for Biotechnology, Chemistry and Environmental Engineering, Aalborg Denmark
8.2003-12.2007	Scientist/Assistant Professor (non tenure track) at the University of Duisburg-Essen, Germany.
20.4.2005	Accomplishing the Habilitation (Analytical Chemistry and Environmental Chemistry), Department of Chemistry, University Duisburg-Essen (head of the committee Prof. Dr. Hirner).
7.2000-7.2003	Scientist at the Institute of Environmental Research/Department of Chemistry, University of Dortmund, Germany.
3.1999-6-2000	Researcher at the Institute for Reference Materials and Measurements of the EU, in Geel, Belgium. Working on analytical methods for the production and evaluation of reference materials for xenobiotics.
1.1997-2.1999	Post-doc researcher at the University of Aachen and the University of Hamburg (Germany) to co-ordinate the German EPA project ALOSON and to provide GC-MS and HPLC measurements as identification of organic pollutants in marine ecosystems at the University Aachen.
1.1996-12.1996	Researcher in the ORSIN (Organonitrogen compounds in the North-Sea) Project at the University of Hamburg.
1.11.1995	Obtaining the Ph.D. in the department of chemistry of the University of Hamburg. Title: „Input, fate and impact of nitrogen- and phosphorus containing pollutants in the North Sea“.
2.5. 1991	Masters thesis (Diplom in Chemie) title: "On the analysis of organonitrogen pollutants from water samples by gaschromatography"
1989	Research on the comparison of different aerosol samplers in respect of heavy metals.
20.7. 1987	Bachelor of Science (Vordiplom in Chemie) at the University of Hamburg
1.10.1984	Start of studies in chemistry at the University of Hamburg.
28.5.1982	Final school exam ("Abitur")
